

RR-160H Impact wrench

NEW!

Red Rooster Professional Airtools

Yokota is replacing the MI-160H by the RR-160H. The new RR-160H answers even better to the modern demands asked from airtools. The RR-160H, with Dynapact hammer mechanism for high durability, is one of the best known impact wrench models in the world.

Robust replacement of the MI-160H

Technical specifications

■ Square drive	1/2"
■ Bolt capacity	16 mm
■ Impact mechanism	Dynapact
■ RPM	8.000
■ Torque	580 Nm
■ Air consumption	4,2 l/s
■ Weight	2,3 kg
■ Inlet thread	PT 1/4"
■ Hose diameter	9,5 mm

**Effortlessly
operated with
one hand!**

Dynapact mechanism:

■ The Dynapact impact system has two pins hammering on the anvil, making one impact per rotation at both sides of the anvil at once. The system gives high torque output and is well balanced.

RR-160H in detail

The RR-160H with Dynapact hammermechanism for high durability, is one of the best known impact wrench models in the world. The RR-160H has a four-position switch for power adjustment and always delivers fullpower in reverse. With the RR-160H you have a high quality and well balanced allround machine at your disposal, which can be operated effortlessly with one hand.
