

GRINDERS

NEW!

RRI-3425 (L/EL)

Characteristics:

- The compact collet chuck and nut are designed for industrial work in confined spaces.
- The chuck takes 6 mm shafts and 3 mm shafts.
- Available in three different lengths.
- The exhaust air is redirected from the user through a hose with muffler.
- The rubber cover of the motorhousing isolates against cold and vibrations.
- The grinders have a safety lever.
